Asset Protection

Trust, Foundation & Fiduciary Structures

Tarovision Fiduciaries Group is one of the largest international offices which specializes in trusts, foundations and financial structures in general.

Our approach includes understanding the real reasons which might lead a client to decide to constitute a trust or a foundation, and to select the best financial solution based on its needs.

A trust can protect one's wealth from future creditors or act as a succession planning instrument since it is not subject to the norms which govern the passing on of inheritances.

Other functions often attributed to trusts or private foundations are those of supporting nonprofit projects or acting as future financing funds for one's children's studies or for the support of humanitarian projects, volunteerism or other charitable activities.

Trusts and foundations are completely legal instruments which are accepted in most countries. Our offices are at your disposal to help you in establishing your trust or foundation. Furthermore, we are one of the largest international offices specialized in trusts. We are able to provide Trustee or Protector services as well.

Investment Funds

International collective investments vehicles

Investment funds are among the most sought after collective investment systems. Tarovision Fiduciaries Group can be a valuable partner for those who want to establish a structure of this type.

A fund is by its very nature a regulated structure subject to the supervision of specific appointed subjects in which they are incorporated.

In Europe, funds established in Cyprus are particularly sought after since, in addition to highly favorable legislation, they are accepted in all financial markets.

Our office assists its clients in all phases of registration of a fund, from the drafting of statutes to registration with the required agencies, as well as providing qualified consulting services for compliance, AML procedures and risk management.

Entrust the establishment of your Investment fund to our highly qualified professionals.

Bank Accounts

Individual & Corporate Bank Accounts

Tarovision Fiduciaries Group is a professional introducer for the largest and most prestigious banks in the world. Our deep knowledge of banking rules and procedures enables us to provide appropriate assistance to our clients in opening personal and company bank accounts.

The banks we work with offer multiple services such as debit cards and internet banking. We can open bank accounts in most global jurisdictions, and many of our founding packages already include this service.

Opening a bank account has become a very complex operation requiring qualified, specialized support. Turning to companies which are not specialized can often involve loss of time and money. Our consultants will evaluate a client's profile in order to direct him or her to choose a bank that can provide assistance in the best way possible.

Shipping

Shipping Companies & Yacht Registration

Shipping is the heart of international commerce. Deciding where to register a commercial ship is a very important decision for a successful business. The main shipping companies are based in countries like Cyprus, Malta, Panama and Hong Kong.

Tarovision Fiduciaries Group assists its clients in the establishment, registration and management of shipping companies in the principal global jurisdictions. We have a presence in Cyprus with a team dedicated to this type of operation since Cyprus represents one of the principal destinations for international shipping companies thanks to its very low taxation, its many bilateral agreements, and its dense network of delegations in the principal global ports.

We can also offer highly qualified consulting services for the registration of yachts and luxury vessels, as well as assistance in all phases of yacht and watercraft registration.

Licenses

Regulated Activities Advisory

Many businesses require the issuing of special licenses to practice, such as Financial Brokers, Insurance, fundraising, gambling, education, etc.

Tarovision Fiduciaries Group Ltd. assists its clients in :

1. Preliminary evaluation on the feasibility of obtaining a license
2. Identification of the best jurisdiction where to request the license
3. Registration cost and management
4. Preparation of documents required to obtain the authorization
5. Preparation of forms
6. Internal audit services
7. Accounting services
8. Company legal advice

Entrusting oneself to our group means selecting a staff of highly specialized professionals with deep knowledge of the norms regarding the regulated activities.
